# CLASSIC<sub>2</sub>

Meet! Expansion of the line of gel polishes of the Classic 2 collection! Now multi-color manicure is in trend. But in order for it to turn out really beautiful, you need to be able to organically combine shades with each other. Our novelty will help you with this!

Gel polishes of the Classic 2 collection from the gel polish factory your color are created for connoisseurs of Japanese quality.

They differ in strength, density and durability of the coating.

The palette of the Classic 2 collection consists of the most popular shades. Special gel plasticizers have been added to the formula of gel polishes, thanks to which the application process turns into a real pleasure.

The collection includes 195 colors that will be relevant at any time of the year.
